# DEAR ME

# DEAR ME

---

Dear Me, these are the things you need to know before you go:  
You can be knocking on the door but you won't get heard  
You don't talk on the phone behind a pane of glass  
Different places have different rules  
Dear Me, there's a lot to learn, but you learn a lot as you go.

Dear Me, these are the things you need to know before you go:  
No matter what they tell you take a change of clothes  
Take addresses and numbers and dates of birth  
No matter what you think, you will get through  
Dear Me, there's a lot to learn, but you learn a lot as you go.

Dear Me, these are the things you need to know before you go:  
There's a locker for your phone and your bits and bobs  
When I see your face it's like Christmas Day  
I was nervous before but when I saw him I was really happy  
Dear Me, there's a lot to learn, but you learn a lot as you go.

Dear Me, these are the things you need to know before you go  
Life revolves like a washing machine (repeat)  
Dear Me (repeat)  
Dear Me, there's a lot to learn, but you learn a lot as you go.

# GONE

# GONE

---

## Verse 1

When I woke up that morning I had my suspicions  
Something was changing something was wrong  
And if I'd have known I'd have made a decision  
To hold you so tightly before you were gone.

## Verse 2

The last time I saw you my heart drained of gladness  
The next time I saw you it flooded again  
The space in between us is filling with sadness  
I'll never forget you, although you are gone.

## Chorus

Now I'm playing a waiting game  
And I know what you're doing, you're doing the same.  
Now we're playing a waiting game  
For you, for you to come home again.

## Verse 3

The house will be full and the dogs will get walked  
We'll laugh and we'll joke and we'll play and we'll talk  
We'll have so much fun and go out for the day  
You'll promise to stay and you'll stay and we'll stay.

## Chorus

Now I'm playing a waiting game  
And I know what you're doing, you're doing the same  
Now we're playing a waiting game  
For you, for you to come home again.

## Middle 8

On a new path that leads down a different road  
Skipping lines in the pavement, the future unfolds  
No more waiting we've found a new way  
For you to stay and stay and stay.

## Chorus

No more playing a waiting game  
No more tears and no more shame  
No more playing a waiting game  
For you, for you to come home again. (repeat)

# WE MARCH ON

# WE MARCH ON

---

Never backwards,  
Only forwards  
Every day we carry on  
Every day we carry on  
We hold stories  
Like a sword and shield  
Every day we march on  
Every day we march on (repeat)

Left, left, left, right, left  
Left, left, left, right, left

Inhale, exhale, out again  
Gonna tell my story now and then  
Inhale, exhale, out again  
Gonnaspeak it out to comprehend

Storming like a ball of pain  
Holding court and pinning blame  
Coming down inside the rain  
We march on

Never backwards,  
Only forwards  
Every day we carry on  
Every day we carry on  
We hold stories  
Like a sword and shield  
Every day we march on  
Every day we march on (repeat)

And if I wrap it up too tight  
Then I won't find the words to take flight  
And if I wrap it up too tight  
Then I won't find the words to take flight

For life has giving me a lesson  
(Every day we carry on)  
Laid bare I am fluorescent  
(Every day we march on)  
All my old aggression  
(Every day we carry on)  
Has turned inwards; like a weapon

Storming like a ball of pain  
Holding court and pinning blame  
Coming down inside the rain  
We march on

Never backwards,  
Only forwards  
Every day we carry on  
Every day we carry on  
We hold stories  
Like a sword and shield  
Every day we march on  
Every day we march on (repeat)

# THE NIGHT IS LONG (CYCLONE)

# THE NIGHT IS LONG (CYCLONE)

---

## Verse 1

The night is long  
The moon looks on  
I lie awake  
And you are gone

## Chorus

I'm feeling so alone now  
I might turn into stone  
And I'll stay on my own now  
Cos I'm feeling so alone

## Bridge

Don't want this ache  
That's in my bones  
It's cold inside  
A cyclone (repeat)  
I'm feeling so alone now

## Verse 2

The day is long  
The sun shines on  
But I don't know  
If I can show

## Chorus

I'm feeling so alone now  
I might turn into stone  
And I'll stay on my own now  
Cos I'm feeling so alone

## Bridge

Don't want this ache  
That's in my bones  
It's cold inside  
A cyclone (repeat)  
I'm feeling so alone

## Middle 8

Lights flicker, time streams  
Tears under moonbeams  
Looking up at starlight  
I'll make a wish for us tonight  
That maybe once the pain is healed  
The lessons left will be revealed  
Cos I think we both want the same  
To feel the love despite the pain
